

Where'd It Go Wrong?

d4vd

[Chorus]

Where'd it go wrong with you?
I don't belong with you
Mmm

[Verse 1]

It's a tragedy
I really thought you were meant for me
I guess you're not, and I can't believe you
I really wanna leave you
How could you lie to me?
Every kiss put a cavity between my lips
I really can't believe you
Don't even wanna see you

[Pre-Chorus]

I've gotta make my mind up
But I can't be wasting time, I might die
(I don't wanna die, I don't wanna die)
Another life is where they'll find us (Ooh)
I hope they just remind us, I tried

[Chorus]

Where'd it go wrong with you?
(Let me out, let me out, let me out)
I don't belong with you
Uh

[Verse 2]

You tell me sorry this, and I apologize
But you don't wanna change, I see it in your eyes
I never got cut by a Band-Aid before
You give me bad luck, I can't take it no more

[Pre-Chorus]

I gotta make my mind up
I can't be wasting time, I might die, ooh

[Chorus]

Where'd it go wrong with you?
(Let me out, let me out, let me out)
I don't belong with you
(At all, at all, at all)

[Bridge]

Baby, don't trip on me
Baby, why can't you see?
Whenever I'm about to leave
I swear, I swear, I mean it
Whenever it gets convenient
'Cause you gon' make my heart stop beatin'
And I don't really want your love no more, I swear, 'cause I don't need it
And I don't mean to be conceited
But I'm the reason you're still breathin'
I'll stop picking up your calls, 'cause you won't stop screamin'
Is it love or lust? I can tell you're feenin'
And I don't wanna hurt your feelings

But, baby, just know my feeling's gone
It's been a while, but you've been on my mind now
It keeps me up at night, I cannot believe this life, I
I wish I never met you, I even second guessed you
But I was in too deep, I couldn't leave I couldn't let you
Walk away from everything, I thought that you were everything
You told me I was special, girl
But that does not mean anything to me

[Outro]

It don't mean anything to me (I tried)
It don't mean anything to me
(You're special, d4vd)
