

Hope

Da' T.R.U.T.H.

Everybody in the building everybody got a hand in the air
Everybody in the building everybody got a hand in the air
Everybody in the building everybody got a hand in the air
Everybody in the building everybody got a SHHH...

We all want it, we all need it
We all want it, we all need it
We all want it, we all need it
We all want it, we all... let's go

We all gon' feel the cares of this life
But we got that hope
We all gon' feel the pressure
But know that we got that hope
In case you feel defeated
In Jesus we got that hope
In Jesus we got that hope
In Jesus we got that hope

Blue collar, white collar
Black professors, white scholars
Politicians, Dalai Lamas
Everybody in the whole wide world need hope if I'll be honest
I'm in that number, but since he saved me
I'm a survive, I'm promised; I got my due, I would go crazy
And I would go nuts and I would go numb
Broken down to the lowest crumb, but I've been in that pit before and they c
all me crazy
But I got that life and I got that strength
In the midnight when the light goes dim, the cycle begin... go!

We all gon' feel the cares of this life
But we got that hope
We all gon' feel the pressure
But know that we got that hope
In case you feel defeated
In Jesus we got that hope
In Jesus we got that hope
In Jesus we got that hope

Drug dealers, meth addicts
Single mommas, baby daddies
College students, working hard but they 'bout to lose it
So here we come to bring them the truth, the Good News but they think we stu
pid
But we got it though, hold more worth than a pot of gold
So much work that we gotta go, a hope like this they gotta know
And man I gotta mention that'll get 'em into freedom, a man didn't really be
at him when they put him on a cross
And then he resurrected 'cause they really didn't defeat him, and now when y
ou accepted you are no longer lost
Had to break it down, give it to 'em on the five, then we break it down, giv
e it to 'em on the four
Tell 'em what we got on three, two, one, zero... go!

We all gon' feel the cares of this life
But we got that hope

We all gon' feel the pressure
But know that we got that hope
In case you feel defeated
In Jesus we got that hope
In Jesus we got that hope
In Jesus we got that hope

Cold killers, gold diggers
Dope dealers, hustling grinding go getters
Hold up, if you're looking for peace then you might wanna roll with us
Hold up, it's going to streets where we goin', so hope's in us
Homie we glow with a joy, opened my eyes and he opened your boy
Took out my heart that was focused on dough, opened some doors and loaded yo
ur boy
Filled in that truth till you know we employed, working for him and we won't
be destroyed
He's building us up and filling us up, we'll be set to pass, and I'm loaded
with joy
Look at me, you can't hurt me, my God'll never desert me
My heart'll stop but I'm good though, 'cause I got hope like I should bro

We all gon' feel the cares of this life
But we got that hope
We all gon' feel the pressure
But know that we got that hope
In case you feel defeated
In Jesus we got that hope
In Jesus we got that hope
In Jesus we got that hope

Everybody in the building everybody got a hand in the air
Everybody in the building everybody got a SHHH...

We all want it, we all need it (hope)
We all want it, we all need it (hope)
We all want it, we all need it (hope)
We all want it...
