

## Roll Now

Da' T.R.U.T.H.

This is just another vertical jam  
You know we fight for the faith like Roberto Duran  
And catch us moving around as we further advance  
The Kingdom of God hope your heart is fertile to plant  
We pray the Lord of the harvest keep sending us out  
Because we can not afford to just sit in the house  
And sit on the couch playing video games in our rooms  
We follow hard after God until we lay in our tombs  
You know we're alienated like first century saints  
As soon as they would enter the gates of a new city  
The news would be in the ear gates of many  
Who hated Christians who were committed to defending the faith  
Just look at Pliny the Great  
Plenty of great Christian men and women contending were signed at the stake  
So now we go from city to stand  
Forwarding truth that counters the videos that MTV plays.

We on a roll now baby  
Throwing them bows who's in control now  
Jesus He came down, baby things ain't the same now  
Since we've been changed blood did it now I'm in it to stay now.

I know this is odd but I know this is God  
Using Christian Hip-hop and R and B like Moses' rod  
To deliver a people from evil, exposing the lies  
That millions of rappers tell when they flow in their rhymes  
Envy, hate, murder, lust and pride is what they sow in the lives  
Of millions of listeners listening, hoping that I  
Would paint a prettier picture, blowing smoke in their eyes  
But nah God's got emotions, can't hold them inside  
He's using His people to speak the truth in the midst of a people who  
Are Godless and just barely religious not at all Godly or Christ like  
Lord Jesus just keep shining your bright light  
In and through us you're the head and we're your beautiful feet  
There's a mutual beef between you and seed of Satan himself  
Wicked men they do replace you with wealth  
Wish you would just stay to yourself  
But you're using us to build a case for yourself.

We on a roll now baby  
Throwing them bows who's in control now  
Jesus He came down, baby things ain't the same now  
Since we've been changed blood did it now I'm in it to stay now.

How many people have ever seen American Idol  
Of course money, power and sex are America's idols  
Yo! You can find this in America's bible  
Yo! America's dying, America's idle  
America's rivals are not merely Osama or other terrorist either  
America's rival is in the mirror that's right in front of our hearts  
Front if you want but some of our hearts are dark y'all  
Just as black as the night  
You can tell because we happen to like the stuff that happens at night  
Preferring wrong rather than practicing what's right  
We don't want to see videos unless some booty is in it  
And don't want to see movies unless we know nudity's in it  
Yo! That's evidence and proof that we're sinners

And need s Savior as sure as a bad tooth needs a dentist  
Yo! Praise God that the booth was invented  
So now globally people can hear when God's truth is presented  
Yo! Through this medium of music we're Christians  
Who refused to be whimpish when persecution is mentioned  
Yo! 'Cause we live if we die for the king  
Hip-hop and the gospel baby that's a dynamic team.

We on a roll now baby  
Throwing them bows who's in control now  
Jesus He came down, baby things ain't the same now  
Since we've been changed blood did it now I'm in it to stay now.
