

# Adrenaline

Daan

Heeey I need adrenaline.  
go.  
Put it to the test  
What if life became a game  
And is your quest dropped down the drain  
Could you manage on your own  
Rather be someone you did not know  
I didn't know I had it all  
Was I to know she was to fall  
Killing earth has gone uphill  
I really need a thrill

I put it to the test  
I'm in second gear  
I get it of my chest  
I won't quit or rest  
I will feel no fear, no fear

Let it go let it flow  
Through my mind through my soul  
It's all adrenaline, yeah yeah yeah yeah  
Let it go let it blow  
From my veins up to my brain  
I need adrenaline  
To take control

When I see through  
I realise there's someone new  
Addiction takes control  
Increasing fear I feel my dear

And I wonder  
How far I'll go  
But it kills me  
I need to know

I put to the test  
I'm in second gear  
I get it of my chest  
I won't quit or rest  
I will feel no fear, no fear

Let it go let it flow  
Through my mind through my soul  
It's all adrenaline, yeah yeah yeah yeah  
Let it go let it blow  
Through my veins up to my brain  
I need adrenaline  
To take control

I realise she's truly gone  
Disappeared like a bullet leaves the gun

Let it go let it flow  
Through my mind through my soul  
It's all adrenaline, yeah yeah yeah yeah  
Let it go let it blow

Through my veins up to my brain  
I need adrenaline  
To take control

Let it go let it flow, I need adrenaline  
Let it go let it blow, I need it  
Let it go let it flow, I need adrenaline  
Let it go let it blow, I feel it
