

Adrenaline

Daan

Heeey I need adrenaline.
go.
Put it to the test
What if life became a game
And is your quest dropped down the drain
Could you manage on your own
Rather be someone you did not know
I didn't know I had it all
Was I to know she was to fall
Killing earth has gone uphill
I really need a thrill

I put it to the test
I'm in second gear
I get it of my chest
I won't quit or rest
I will feel no fear, no fear

Let it go let it flow
Through my mind through my soul
It's all adrenaline, yeah yeah yeah yeah
Let it go let it blow
From my vains up to my brain
I need adrenaline
To take control

When I see through
I realise there's someone new
Addiction takes control
Increasing fear I feel my dear

And I wonder
How far I'll go
But it kills me
I need to know

I put to the test
I'm in second gear
I get it of my chest
I won't quit or rest
I will feel no fear, no fear

Let it go let it flow
Through my mind through my soul
It's all adrenaline, yeah yeah yeah yeah
Let it go let it blow
Through my vains up to my brain
I need adrenaline
To take control

I realise she's truly gone
Disappeared like a bullet leaves the gun

Let it go let it flow
Through my mind through my soul
It's all adrenaline, yeah yeah yeah yeah
Let it go let it blow

Through my veins up to my brain
I need adrenaline
To take control

Let it go let it flow, I need adrenaline
Let it go let it blow, I need it
Let it go let it flow, I need adrenaline
Let it go let it blow, I feel it
