

Eternity

Daan

Your heart stops my melting gun the parking lot the triple fun
don't you know we couldn't miss none of this our loving ain't c
old so don't call it trash
Drop the pressure god the mountain feet the holy plot
Can't take the passion into crashing the need
I need your flesh cause I need your flesh
Eternity in the name of love and liberty call it humanity on a
one way trip to vanity no we couldn't break up or call it no fa
tality no fantasy
I guarantee you quality and quantity eternity
