

Double Tap Suicide

Dááth

Just make them fucking stop
racing through my head
I reach inside
a place to crawl and die

ill find another chance to hide
Discarded for another time
only one option
decide

begin to taste
the sharp revision set in place

then you
pull the trigger
and the satisfaction dies
you have one last chance to change my mind
then I take hold of the blade
removed from sanity
then the corrupted lessons fail

pull the trigger
then the satisfaction dies
you have one last chance to change your mind
pull the trigger
snap back and decide
pull the trigger
who the fucking hammer
falls on this time

double tap suicide
