Big 13 known to put shit in the spital  
With a lil' wide body, pop out with a missile  
Straight from the south and I ain't worth seven figures  
Put a bag on they head, know a kid who'll spit 'em  
I knew he was slumped, watch him tweak when I hit 'em  
My arm will align, still slide with the killers  
Get some, get back, celebrate, throw a dinner  
Passing the wood, I put dead folks in 'em  
Tough talk around me, get a background check  
Research came back, he is not a real hitta  
I pick up my MAC 'fore I talk back on Twitter  
Be high off of blood, get the drop from his sister had big dreams on gettin'  
rich  
Just like El Chapo ever since I was little  
Matter fact, get 'em wacked like I'm Pablo  
If a nigga blue tip, knock some meat off his taco  
My life on the wire, feds want me like Marlo  
Choppas around me, they follow where I go  
Spent a 30 ball with my gun plug in Chicago  
Six hundred somethin' shots trailing me in the tahoe  
Baby and Shiesty, this shit got too icy  
We 'posed to be rappin', this turned to a light show
