

# Doo Wop

DaBaby

Please say DaBaby

Yeah, best motherfucking rapper, nigga (That's-, that's-)

Come on (That's-, that's-, that's my baby)

Yeah

I'ma keep it pimping with you

I like what you do but it ain't for me

I prefer the simple women

She got it from you and I got it for free

I was probably hitting it different

Yeah, you gotta be careful

Most of these women they want the same thing

Wanna take selfies in the Maybach

Wanna ride 'round drinking champagne, yeah

One thing about it, can't let 'em play me like no damn lame (Yeah)

I turn to Rashad [?], and treat it like a new, snatch your damn chain

All the solid bitches worldwide boutta be tapped back into my campaign

And girl, you know you gotta watch these niggas

Niggas don't be knowing shit

These niggas be tricks, paying for pussy

These niggas be over with (That's-, that's-)

I'ma drop a mixtape and make the world stop like covid did

Amex the credit cards and the hunnids blue like Hova kid

Yeah, my woman on deep shit with G shit, she like Lauryn Hill

Not the kind who live beyond her means and can't afford the bill

I was out here putting it down for my team, I couldn't afford to chill

The same people I was hustling for weren't there, weren't no longer here

You know I have beef, but play for keeps, I ain't really trippin' 'bout it

I been chose myself too many times to be in my feelings 'bout it

As long as my daughters and nieces happy, they comin' for anybody

So the first nigga play with 'em wrong

I'ma stop everything and kill somebody, anybody

I do a nigga wrong and forget about them

Ain't taking no handouts from these niggas, know I'ma get mine

She say she never been out the country, she get sick flyin'

I'm havin' them hits out, Grammy-nominated six times

I'm having a good time

Shitting on niggas and giving these demonstrations

I already did it before but I'm back more wise and a lil' more patient

In a hotel room with hoes and condoms, don't need no more babies

She already know she gon' die right there with the robbers if she tryna show locations, bitch

And with all that shit you think you on

And I'ma still pop my shit regardless if they play my song (Play my song)

I'ma just come back with some hard shit, it won't take too long

I'm across the country, I'm working niggas in they own city, you would think I'm home

I'ma stand on business on sight so quick, they gon' say I'm wrong

I'ma do hits so wrong I'ma make everybody say I'm right

Better learn quick, give a fuck what people think, get a say in life

You go watch for fuck niggas and fake clothes, you gon' pay your price

I seen it, nigga

I'm telling you

First hand, a veteran

She gave a firm handshake and told me I'm excellent

I'm ghetto, left the restaurant grab a hand full of peppermints

Know I ain't perfect, I see this how I expected it

I been through worst and I mean it, so I ain't stressing it  
This beat remind me of the nineties back when we ain't had shit  
But our family, now I see what the biggest blessing is  
Your people, nigga

'Cause that's the biggest motherfucking blessing, nigga  
Your family, you know what I'm sayin'? (Please say DaBaby)  
Keep that shit intact as much as you can, you know what I mean? (Please say  
DaBaby)  
Yeah, best motherfuckin' rapper (Please say DaBaby)
