

GHETTO SUPERSTAR FREESTYLE

DaBaby

I had to come and cook me up a new one
They like when I'm talkin my shit
Always on poin clutching my finger on the trigger
Whenever I'm parkin my whip
They done went and got me started
Now I'm goin retarded they sayin I started some shit
Somebody go get some water and pour that shit on me
Cause I'm hot then a bitch
And I ain't even pop yet

I'm out the city you know ima blank niggas can't even stop it
I get in that mode sell everything that I got
And take off all these chains and thse watches
These niggas some hoes
Monkey see monkey do that ain't the way that I'm rockin
You gon see all 10 of my toes touchin the mofuckin ground
Til they man up and drop me I swear to God niggas ain't goin
Come put that pussy on me then I gotta go hustle
Don't bug me that shit get annoyin
Whip out and draw down on niggas
Or let that shit slide I should probably flip me a coin
I woulda crashed in yo mothafuckin face
If it was back in the day but a nigga been growin
She ain't respectin the shit that I got goin on
And I tell her bitch get up get gone
I ain't tryin to kick it I love myself I don't play bout a nigga
I love my kids I don't play bout my daughters
Dive in yo shit then go pay out my lawyers
I ain't tryin to be at the top if I can't stand on business
That's me and I'm not one of them other niggas you readin about
I'm the real mother fuckin thing if see it or not lil nigga
Turn up the motherfuckin tint
Now they waitin for baby cd to come out
I got a glock 23 on my hip
Nigga play round with me we gon see what he about
I had to switch up the mofuckin click niggas thought it was easy
Baby don't fuck with you now
Won't fuck with you 20 years later like Gucci and jeezy
If you don't like it lil nigga get even
Let's see what these niggas doin
I got the shit that ain't on me its in me
These niggas think that they know me oh really
Get on your ass right this moment no diddy
Coulda hit her I don't wanna she hit me
Open it up and act like I don't see it
They don't wanna see me on top I done peeped it
If I want something act like I don't need it I can't let em notice
I done took care of some niggas way more than they parents and they came ung
rateful for it
I'll give you a chance with this shit but I can't hold your hand
Ima tell you good luck and don't blow it
I come and float on the mofuckin beat
With that pain in my eyes like a mofuckin soldier
I can pronounce every consonant and every vowel
On this bitch like a mofuckin poet
I'm articulating
And its too late for niggas they already hatin

I eat me a plate and I'm already hungry
I guess niggas thought that I already made it
Her pussy get wet through a drought
And shell fuck me right here in this car she my favorite
Its too late I ain't coolin off
I'm finna step on these niggas all summer
Then come through and step on that shit in the fall
I had to remind they hoe ass I'm a dog
I'm still screamin fuck all these niggas we ball
Yeah he gon get up everytime that he fall
If you gon sit there and say you love baby
Then promise you pick up every time that he call
That bread that was left on the table
He comin for every single dollar he lost
Nigga I'm tellin ya

I had to come and cook me up a new one
They like when I'm talkin my shit
Always on poin clutching my finger on the trigger
Whenever I'm parkin my whip
They done went and got me started now
I'm goin retarded they sayin I started some shit
