

SAVE ME

DaBaby

(You think you can save me?)
(How you think you can save me?)
What?
(Yeah)

Think you can save me like you God or somethin'?
I've been put up out the way, I ain't been startin' nothin'
I done spent a couple million on them lawyer fees

'Cause when you really stand on business, it's gon' cost some money
And I looked at shit like it was normal, it was off the muscle
When I get back and start performin', it's gon' cost you double
When I stayed silent in my morals, yeah, it cost me plenty
When I'm inside of her, it's like water, she gon' toss me under
So, where the lifeguard at? 'Cause I'm not tryna float away
I'm just tryna know your name
Every time you see 'em out, act like you don't know them lames
Every time I'm leavin' out, I watch all three of my mirrors, and check the c
ameras 'fore I leave the house
Makin' sure ain't no snakes around my land, I gotta weed 'em out
Better stay out my face 'cause I'm a man and I'll bleed you down
A man, I wanna see you smile
A man, I wanna see you strong
A man don't wanna see you down
A man'll tell you come outside
A man'll wanna see you now

(You think you can save me?)
Like right now
Yeah, like, I wanna see you right motherfuckin' now, like, get here (How you
think you can save me?)
Think you can save me like you God or somethin'?
I've been put up out the way, I ain't been startin' nothin'
'Cause I done spent a couple million on them lawyer fees

Done spent some more on people who say I never bought 'em nothin'
They say they love you, then they act like they ain't never love you
You go through shit and, yeah, you act like it ain't never nothin'
That youngin hurtin', he need love, so you can't tell him nothin'
He got that .40 in his backpack, he ain't scared of nothin'
They think they know you, niggas act like you a ho or somethin'
Them niggas played, you gon' blow it, you gon' show 'em somethin'
Them niggas actin' like you owe 'em, you don't owe 'em nothin'
No 9 to 5, you'd rather post up at the store or somethin', and we can't save
you

(You think you can save me?)
You know when it's just some people, man, unfortunately, you know? (How you
think you can save me?)
Man, we can't save 'em
You know what I'm sayin'?
I might be one of them
I might be one of them niggas, you know? Baby
You can't save, nigga
And I ain't lookin' for you to save me, nigga
Be more grateful
You know I put my faith in God
