

# Constellation

Dabin

Let's go

Maybe the sunlight will come out and bring me right back to life  
Maybe the sunrise will burn out and light me up from inside

Looking for something to take me  
To another galaxy  
I'm so tired of feeling nothing  
I wanna start to believe

I'm on the outside of my mind  
Take a deep breath, I'm going there tonight  
Looking at a star for an inspiration  
Ego-suicide  
Take a deep breath, I'm somewhere in the sky  
Hanging on a star in a constellation

Under the moonlight  
I hear the waves come crashing down, yeah  
But I'm in the backseat  
Along for the ride and I'm fading out

Looking for something to take me  
To another galaxy  
I'm so tired of feeling nothing  
I wanna start to believe

I'm on the outside of my mind  
Take a deep breath, I'm going there tonight  
Looking at a star for an inspiration  
Ego-suicide  
Take a deep breath, I'm somewhere in the sky  
Hanging on a star in a constellation  
Hanging on a star in a constellation  
(Hanging on a star in a constellation)  
Oh, oh, oh

I'm on the outside of my mind  
Take a deep breath, I'm going there tonight  
Looking at a star for an inspiration  
Ego-suicide  
Take a deep breath, I'm somewhere in the sky  
Hanging on a star in a constellation

I'm on the outside of my mind  
Take a deep breath, I'm going there tonight  
Looking at a star for an inspiration  
Ego-suicide  
Take a deep breath, I'm somewhere in the sky  
Hanging on a star in a constellation  
(Oh-oh, oh-oh) Hanging on a star in a constellation  
(Oh-oh, oh-oh) Hanging on a star in a constellation
