

In Flames

Dabin

We walked through fire and rain
Nothing could faze us again
But we couldn't see through the haze
So we burned down

And my heart was wrapped in your chains
No, nothing could faze us again
But we couldn't see through the hate
So we burned down again

Do you remember the way
Our bodies had faded away?
Holding on, we were holding on
And do you remember the pain?
Our bodies inside of the flames
Holding on, we were holding on

Holding on

Ashes inside of my lungs
I couldn't beg for your love
Three words for you on my tongue
As we burned down

And you said I wasn't enough
No, nothing could rebuild your trust
So you lit the matches for fun
And we burned down again

Do you remember the pain?
Our bodies inside of the flames
Holding on, we were holding on

Holding on
Holding on
We were holding on
