

# Starbright

Dabin

I remember one night in September  
Lying on our backs under the moon  
You told me that nothing lasts forever  
But I was too busy falling for you

But I should have listened  
'Cause now I'm here missing you  
Wishing that you were here

Oh woah, Starbright, can you shine a light?  
I need you by my side  
It's dark out there tonight  
Oh woah, Starbright, someday, somewhere far  
When we're not worlds apart  
I'll hold you in my arms  
But until I can see you again, I'm wishing on stars

I can blame the whole thing on bad timing  
Turn back all the clocks to yesteryear  
I can try to find the silver lining  
But all the colors seem so dull without you near  
(Without you near)

But I should have listened  
'Cause now I'm here missing you  
Wishing that you were here

Oh woah, Starbright, can you shine a light?  
I need you by my side  
It's dark out there tonight  
Oh woah, Starbright, someday, somewhere far  
When we're not worlds apart  
I'll hold you in my arms  
But until I can see you again, I'm wishing on stars

(Ooh, ooh-ooh-ooh)  
(Ooh, ooh)
