

Touch

Dabin

Taking over it all again
Lay back pretending
Thinking we're only friends
You know by now

Baby it all begins
That lonely touching
Everything starts to spin
Starts to spin

Baby it all begins
Taking over it all again
Hands scarred, forgetting
Filling the spaces thin
Don't turn back now

Baby it all begins
Caught in the rushing
Everything starts to spin
Start to spin

You know by now
Baby it all begins

Baby it all begins
