

Two Hearts

Dabin

One night I find
A light beneath your eyes
So I rewrite
One life to make you mine
You wander in my mind
And I start to feel alive
Deep water on the rise
You know I'm on your side
(You know me better)
I tried, I meant to make it right
The golden afterlife
You know I'm on your side

You know me better
You know me better than I do
I do
