You & I

Dabin

Don't want to fight, but you don't know what you started
All in my mind like, just don't make any sense
Burning alive, but I just don't seem to feel a thing
I'm holding on tight, while you run and hide
A million ways to forget me

Fire signs, sparks fly, hold it up to the sky
Because we, we ain't gonna live forever
Bright eyes, open wide, all I see here is you and I
But we, we ain't gonna live forever
And you see us too

(See us too)

I want you with me any place I go
But eventually I know you won't be there no more
I'm holding on tight, while you run and hide
You always made that look so easy
You made up your mind, but these red eyes
They don't seem to see what you see

Bright eyes, open wide, all I see here is you and I
But we, we ain't gonna live forever
And you see us too

(See us too)
(See us too)
