

Falling Backwards In Time

Dada Life

I got the feeling in my bones
I self-destruct to find my love
I feed on who you wanna be
I use you up and then I leave

Trying till our body aches and try again
Trying till our selves will break forever

Fall in time
We were always headed for the ground
We are crashing but we make no sound
Backwards in time
Fall in time
We were always headed for the ground
We are crashing but we make no sound
Backwards in time

I got the hunger of the beast
I hear you cracking underneath
I lick the tears right off your face
Remember how you used to taste

Trying till our body aches and try again
Trying till our selves will break forever

Fall in time
We were always headed for the ground
We are crashing but we make no sound
Backwards in time
Fall in time
We were always headed for the ground
We are crashing but we make no sound
Backwards in time

Backwards in time
Backwards in time
Backwards in time
Backwards in time
Backwards in time
Backwards in time
Backwards in time
Backwards in time

Backwards in time
Backwards in time
