

Vegas Chaffe, Brutha I Got it Too

Daggermouth

This stomach pain is back again
Visits me like an old friend
I'll be the one curled up on the floor
and you know I can't go on feeling this way
my body is a joke

and you say you're wasting your day as you sleep until noon
and I know I'd rather be alone
Time will tell what I can do

Cant handle this
What I've given is all I've got to give

Excuse me doctor this doesn't work
This medication, it still hurts
Seven pills a day should keep this at bay
and you know I can't go on feeling this way
my body is a joke.

and you say you're wasting your day as you sleep until noon
and I know I'd rather be alone
Time will tell what I can do

and I never got to say, how much I hurt today.
The dull blade of pain cuts me tonight
Someone's waiting I'm stuck in this life
