

System

Daggers

I wish my friends could see me now
But I'm captured in your game
And I do nothing but react
To the appreciation
If I didn't make it up, it wouldn't happen
But my imagination's not that wild

A system of love
Resistance is leaving me now
So right should I feel the beautiful scars
I suffer in love
A system of love
Resistance is failing me now
Watching it torn and broken apart
I suffer in all

You did something to me
But I'll always blame myself
So I do nothing but react
Out of desperation
Remember how I said it wouldn't happen
But now I just can't seem to find the words

A system of love
Resistance is leaving me now
So right should I feel the beautiful scars
I suffer in love
A system of love
Resistance is failing me now
Watching it torn and broken apart
I suffer in all

A system of love
Resistance is leaving me now
So right should I feel the beautiful scars
I suffer in love
A system of love
Resistance is failing me now
Watching it torn and broken apart
I suffer in all

Love
Love
