

## Bad At Love (Interlude)

Dagny

Don't know why it doesn't feel the same  
As before  
Back to back instead of face to face  
But I want more  
We don't even touch when we're alone at night  
Now there's only smoke, it used to be a fire  
Don't know why it doesn't feel the same  
As before

Please say something it  
Feels like time is still  
Watching your eyes fill

Cause it's too late to fix what we've broken  
Heal the wounds that we've opened  
Maybe I should have known not to fall,  
Cause I know I'm the cause of it all  
Trying my best to fight off this moment  
Didn't mean to go and break another heart  
And I hate that I'm responsible  
Maybe I'm just bad at love  
Maybe I'm just bad at love
