

Come Over

Dagny

I keep going back to when I laid eyes on you
'Cause ever since then you've been on my mind
You gave me that look and suddenly I felt new
Now I'm watching my phone late in to the night

But it's been days, I hate to wait
I guess that we're both too shy to call up
I wish you would speak your mind
And tell me that you also want me closer
'Cause, baby, when I think about you I come alive

You should come over
Let me get to know you
I'm picturing you when the light hits your face in the morning
Yeah, I need to know you
You should come over

There's not a moment I don't want to talk to ya
There's so many things that I wanna know
Like your favourite place, your favourite song
And all of the secrets that nobody knows
Let it all be uncovered

So tell me why we're wasting time?
We both know we want to get in closer
'Cause, baby, when I think about you I come alive

You should come over
Let me get to know you
I'm picturing you when the light hits your face in the morning
Yeah, I need to know you
You should come over

You should come over
Stay as long as you wanna
With the sun on your skin as I'm taking you in for a moment
Yeah, I need to know you
You should come over

I know we got busy schedules
I know we got busy minds
So, why don't we just ease each other
Get lost in me, I'll get lost in you
'Cause, baby, when I think about you I come alive

You should come over
Stay as long as you wanna
With the sun on your skin as I'm taking you in for a moment
Yeah, I need to know you
You should come over

You should come over
Stay as long as you wanna
With the sun on your skin as I'm taking you in for a moment
Yeah, I need to know you
You should come over
