

# I Say

Dagny

They say you need to join the real world  
They say it's time to grow up  
They say you better watch your diet  
They say get a proper job

But I won't give in  
Wear a different skin  
Won't let them take my smile away  
Who are «they» anyway?

So I say stop the t-t-talking  
I'm so sick of empty noises  
I'm just doing what I'm doing  
And I don't need no permission from you, no  
My way is to laugh as I'm falling  
We're too young to be conforming  
Get right out of my head  
You're talking means nothing  
And that's all you've said

I listen to nothing

They ask «when will you get married?»  
They say you're too young to settle down  
They ask «are you saving for your future?»  
They say time is running out

But I won't give in to that silly spin  
Won't let them take my smile away  
Who are they anyway?

So I say stop the t-t-talking  
I'm so sick of empty noises  
I'm just doing what I'm doing  
And I don't need no permission from you  
My way is to laugh as I'm falling  
We're young to be conforming  
Get right out of my head  
You're talking means nothing  
Did you hear what I said?

They tell you to keep your head down  
They tell me to stick to the safe ground  
You can shout all you like I won't turn around  
No ones right I don't give a damn  
I'll do this my way I'll do this my way

So I say stop the t-t-talking  
I'm so sick of all these noises  
I'm just doing what I'm doing  
And I don't need no permission from you  
My way is to laugh as I'm falling  
We're all too young to be conforming  
Get right out of my head  
You're talking means nothing  
Did you hear what I said?

You're talking mean nothing
