

# Same Again (For Love)

Dagny

I've been giving  
Now I give it up  
I've been dreaming  
But dreams aren't enough

I've been running away from myself  
Gave my all to somebody else

Now I'll never do the same again for love  
Won't let it bring me down  
'Cause everything that goes around comes around  
I'll never, I'll never, I'll never  
Do the same again for love  
Not gonna hurt no more  
'Cause everything that goes around comes around

Catered your feelings  
A little too long  
And not even my voice  
Felt like my own  
Things started spinning  
So out of control

It's a long way down  
To run yourself to the ground

Now I'll never do the same again for love  
Won't let it bring me down  
'Cause everything that goes around comes around  
I'll never, I'll never, I'll never  
Do the same again for love  
Not gonna hurt no more  
'Cause everything that goes around comes around

I'll never do the same again for love  
Same again for love  
Same again for love

I'll never make the same mistakes for love  
Not like I did back then  
I'm not gonna let me down, anymore

Now I'll never do the same again for love  
Won't let it bring me down  
'Cause everything that goes around comes around  
I'll never, I'll never, I'll never  
Do the same again for love  
Not gonna hurt no more  
'Cause everything that goes around comes around

I'll never do the same again for love
