You shiver and take a look up to the sky  
So do it, bring the light through this blackened sky.

Let's stare at the sun  
For a while let's feel alone.

All Solutions we'd considered  
And us to die, smiles turn to cries  
under a blackened sky.

Let's stare at the sun  
For a while let's feel alone.

Let's stare at the sun  
For a while let's feel alone.

Let's stare at the sun  
For a while let's feel alone.

Let's stare at the sun  
For a while let's feel alone.
