Dagoba

I catch her eye
A sinister smile
As she walks my way
Smell like danger
With all the things she says

I take my chances
Sinking deep into the night
Don't turn away
I'm diving deep into your eyes

See her dressed in black
She's coming my way
Pull her close
Make her mine
And all the things she says

I take my chances
Sinking deep into the night
Don't turn away
I'm diving deep into your eyes
I take my chances
Sinking deep into the night
Don't turn away
I'm diving deep into your eyes

How she sways
Tell me to stay (Tell me to stay)
How she sways
Please tell me (Tell me)
Tell me to stay

I take my chances
Sinking deep into the night
Don't turn away
I'm diving deep into your eyes
I take my chances
Sinking deep into your eyes
Don't turn away
I'm diving deep into your eyes
