

Summer's Gone

Dagoba

No more sunshine, no more rain
No more light to end the pain
To end the pain

Say you'll bring me back to life
Say you make it all alright
It's alright

See how the seasons change
Ever since you went away
Took the summer when you left
Oh, you went away
From spring to fall
An end to it all
From spring to fall
From spring to fall
An end to it all
From spring to fall
Like summer's gone

Save me from this endless night
And lead me back into the light
Into the light

See how the seasons change
Ever since you went away
Took the summer when you left
Oh, you went away
From spring to fall
An end to it all
From spring to fall
From spring to fall
An end to it all
From spring to fall

Like summer's gone
Like summer's gone
Like summer's gone
Like summer's gone

From spring to fall
An end to it all
From spring to fall
From spring to fall
An end to it all
From spring to fall
Like summer's gone
