

# Somebody Else Now

Daði Freyr

I'd like to do  
The things I like do do  
And I'd like to say  
The things I like to say  
But I need to hear  
All there is I need to hear  
Not only what I want

I know some conversations  
They may lead to complications  
But please stop with your fixation  
And get over yourself  
Theres no need to get upset  
I promise you you won't regret  
Opening your mind just a little bit

I never thought I needed change  
But it makes me proud to say  
That I'm somebody else now  
That somebody's not here to stay  
He'll be going away soon  
And that's ok

There's nothing wrong  
With changing your mind  
I promise you  
You will be fine  
Just listen closely  
So you can make an informed decision honey  
Theres no need to get upset  
I promise you you won't regret  
Opening your mind  
Just a little bit

I never thought I needed change  
But it makes me proud to say  
That I'm somebody else now  
That somebody's not here to stay  
He'll be going away soon  
And that's ok

I never thought I needed change  
But it makes me proud to say  
That I'm somebody else now  
That somebody's not here to stay  
He'll be going away soon  
And that's ok
