

Sometimes

Daði Freyr

Take me where we can be just us
And forget about the world
It's been some time since we got some time
Since we got some time for us

It's been you and me and them for a while
Which is great don't get me wrong, but

I wanna go do something
I want to go with you
Pretty much anything
Long as it's just us two
Like somewhere late at night
Move in painted lights

Close your eyes we can be just us
And forget about the world
It is a change when we've been night owls
But then turn to early birds

It's been you and me and them for a while
Which is great don't get me wrong, but

Sometimes, sometimes I want to
Sometimes, sometimes I need to
Sometimes, sometimes I have to
Go out, turn off

I wanna go do something
I want to go with you
Pretty much anything
Long as it's just us two
Like somewhere late at night
Move in painted lights
