

Sunshine

Daði Freyr

Sunshine it's been far too long
Sunshine you're where I belong
It's so nice to see you here
I love it when you appear
I've missed you so

I keep forgetting how my body's so dependent
Whenever you're not around I start to wither away
I know I've done some foolish things
I'm sorry for the fool I've been
I've missed you so

Sunshine hold me close to you
Sunshine like you used to do

It's so nice to see you here
I'm not going anywhere
I've missed you so

I keep forgetting how my body's so dependent
Whenever you're not around I start to wither away
I know I've done some foolish things
I'm sorry for the fool I've been
I've missed you so

I keep forgetting how my body's so dependent
Whenever you're not around I start to wither away
