

The Future Free

Daisy Chainsaw

All, all for the future free, free so free
All, all for the future free so free

For god we stood
The right
Do as we should

Just for you, my boy
Keep you from the common ploy
Just for you, my girl
When I'm dead and gone

All, all for the future free, free so free
All, all for the future free so free

Do as it takes
For all our sakes
Must save our race
Just for the Union Jack
Don't you feel so proud of that?
Just for the Stars & Stripes
We'd pay the highest price

All, all for the future free, free so free
All, all for the future free so free
