

# Spectacle

Daisy The Great

Tell everyone  
I'm down for the count  
Write a list of what the man said in the video down  
Caught by the walking reflection in town  
Distorted windows are holding their ground

Look at me and tell me straight  
Have I become a replica  
I don't know how to be great the heart hides from the spectacle

I might say  
Take a bite of me  
Eat it all  
Do I taste so sweet

Make me amazing by saying it twice  
Once with everybody watching and once with advice  
When I'm alone I take stock of my face  
My cheeks are putty I push them in place

Look at me and tell me straight  
Have I become a replica  
I don't know how to be great the heart hides from the spectacle

I might say  
Take a bite of me  
Eat it all  
Do I taste so sweet

(I'm down for the count, reflections in town, all around, reflections in town)

I might say  
Take a bite of me  
Eat it all  
Do I taste so sweet

(I'm down for the count, reflections in town, all around, reflections in)
