

Swinging

Daisy The Great

Tongue tied at the dentist I got too high on the gas
Fell down through my empty head a deathbed looking glass
At the bottom of the nothing screaming to be found
Red yelling couldn't tell you if I made a sound
And outside in the city on high that drill hook guy said open your mouth
Ahh

Over the dark sea
I'm hanging on by a string
I'm scared but I'm swinging
I'm scared but I'm swinging
Up here the stars seem
Like a reflection to me
I'm scared but I'm swinging
I'm scared but I'm swinging

Wake up to the bright white light oh please don't look at me
I've been on the brink inside the body of the beast
In the middle of the belly what a bad day
Now I'm never gonna really wanna run away
All alone in a mouth held open I was hoping not to break

Over the dark sea
I'm hanging on by a string
I'm scared but I'm swinging
I'm scared but I'm swinging
Up here the stars seem
Like a reflection to me
I'm scared but I'm swinging
I'm scared but I'm swinging

I just wanna go
Someone take me home
I just wanna go
Someone take me home
I just wanna go
Someone take me home
I just wanna go
Someone take me home

Over the dark sea
I'm hanging on by a string
I'm scared but I'm swinging
I'm scared but I'm swinging
Up here the stars seem
Like a reflection to me
I'm scared but I'm swinging
I'm scared but I'm swinging

Over the dark sea
I'm hanging on by a string
I'm scared but I'm swinging
I'm scared but I'm swinging
Up here the stars seem
Like a reflection to me
I'm scared but I'm swinging
I'm scared but I'm swinging
