

Woods

Daisy The Great

Zipper up your winter coat
Frozen river, frozen boat
Snowflakes falling in your eyes
Watch out or they'll crystallize

Watch out or they'll crystallize
Watch out or they'll crystallize

You followed the fire to a house in the woods
That's not where you live but maybe you could
Light a fire in a house in the woods
That's not where you live but she might be good
That's not where you live but she might be good

Put your hat upon your head
When did you get out of bed
Icicles are hanging low
You picked a swell time to go

You picked a swell time to go
You picked a swell time to go

You followed the fire to a house in the woods
That's not where you live but maybe you could
Light a fire in a house in the woods
That's not where you live but she might be good
That's not where you live but she might be good

You followed the fire to a house in the woods
That's not where you live but maybe you could
Light a fire in a house in the woods
That's not where you live but she might be good
You followed the fire to a house in the woods
That's not where you live but maybe you could
Light a fire in a house in the woods
That's not where you live but she might be good
That's not where you live but she might be good
