

Hair of the Dog

Dale Watson

I woke up this morning;, my head was poundin'
I can't believe I let me do it again
I stayed out all night drinkin',
what the hell must I be thinkin'
Well I swore I'd never drink like that back then
Swear I'll never drink again, again

Chorus:

Give me a hair of the dog that bit
Cause I heard somewhere it takes the bite away
Give me a hair of the dog that bit me
They tell me that it helps to ease the pain
I swear I'll never drink again, again

Solo

That's an old familiar story that I've told a thousand
times
Somehow I just can't get it thru my mind
But my mem'ry gets much clearer when I look into a mirror
After huggin' that cold porcelain oh so tight
Prayin' Jesus just get me thru the night

Chorus
