

Hide From A Broken Heart

Dallas Smith

Spend all night
Just driving no lane roads
Unwinding county lines
From coast to coast
I thought it'd be easy
Getting over you
But baby I ain't even close

I dun tried whiskey
Drowning your ghost on the boulevard
It's like you're still with me
Everywhere I look baby there you are

From LA to New York
I can't get you off my mind
You're still right there
Every time I close my eyes
I drive a million miles in the dark
But I can never get too far
Cause you can run but you can't hide
Hide from a broken heart

5:37 on the dash
I still think about you
Way too early in the morning
To be drinking bout you
I can't put you in the past
I still think about you
All the time
Baby I'm

Tired of the whiskey
Dancing with your ghost on the boulevard
It's like you're still with me
But heaven only knows where the hell you are

From LA to New York
I can't get you off my mind
You're still right there
Every time I close my eyes
I drive a million miles in the dark
But I can never get too far
Cause you can run but you can't hide
Hide from a broken heart
Hide from a broken heart
No no

It's gonna find me
Gonna remind me
Of the monster underneath your side of the bed
Again and again, yeah

From LA to New York
I can't get you off my mind
You're still right there
Every time I close my eyes
I drive a million miles in the dark

But I can never get too far
Cause you can run but you can't hide
Hide from a broken heart
No no no
Hide from a broken heart
Hide from a broken heart
