

I Would

Dallas Smith

Hello, oh hey
It's you, didn't keep your number girl I lost it
No, your dress ain't in the closet
It's been gone since you've been gone
I know it's weird
I'm just trying to find the right words
It ain't easy girl this awkward conversation on the phone
As much as we've been through
And as bad as I want to

I'm not gonna tell you how much I miss you
I'm not gonna drive right to your place
I'm not gonna kick in the door and kiss you
And say we made a hell of a mistake
I'm not gonna turn down the lights like we used to do
And do what we did so good
And I won't say that I'm still in love with you
But if you wanted me to
If you wanted me to, I would
If you wanted me to, if you wanted me to I would

Well I can be there in five
We can put an end to all this hurt
Slam this goodbye in reverse
Yeah but until you say the words

I'm not gonna tell you how much I miss you
I'm not gonna drive right to your place
I'm not gonna kick in the door and kiss you
And say we made a hell of a mistake
I'm not gonna turn down the lights like we used to do
And do what we did so good
And I won't say that I'm still in love with you
But if you wanted me to
If you wanted me to, I would
If you wanted me to, if you wanted me to I would

Well I'm a man of my word
And that hasn't changed
But neither has the fact that you can talk me out of and into anything
(That's right)
You could talk me into anything

I'm not gonna tell you how much I miss you
I'm not gonna drive right to your place
I'm not gonna kick in the door and kiss you
And say we made a hell of a mistake
I'm not gonna turn down the lights like we used to do
And do what we did so good
And I won't say that I'm still in love with you
But if you wanted me to
If you wanted me to, I would
If you wanted me to, if you wanted me to I would
If you wanted me to I would
