

## Side Effects

Dallas Smith

Midnight knock,  
On the front door let you in,  
We don't talk  
Kiss for kiss,  
We trade this rush again,  
We can't stop

Yea there's something so narcotic  
But I bet I want it,  
Forget about the price or the pain,  
I'm just a junky for the fix,  
Even though it hits  
Like a gun shot the next day

Your lips should come with a warnin'  
Your touch should have a red light  
There's a hard crash comin' in the mornin'  
On the bright side this high,  
Yea that's the side effects of trying to mix  
Lovin' what we do  
That's the side effects of me and you

Last goodbye, was so damn good,  
I need it one last time  
Yea that's the thing about addicted  
You swear your gunna kick it  
Till the kiss pulls you back in the flame

Yeaa

Your lips should come with a warnin'  
Your touch should have a red light  
There's a hard crash comin' in the mornin'  
On the bright side this high,  
Yea that's the side effects of trying to mix  
Lovin' what we do  
Thats the side effects of me and you

Ohhhh yeaa

Your lips should come with a warnin',  
By now you'd think that i would know  
Your touch should have a red light,  
But i still want it every night

Wooowooowow

Your lips should come with a warnin'  
Your touch should have a red light  
There's a hard crash comin' in the mornin'  
On the bright side this high,  
Yea that's the side effects of trying to mix  
Lovin' what we do  
That's the side effects of me and you,

Yea that's the side effects of trying to mix  
Lovin' what we do

That's the side effects of me and you
