

# Slow Rollin'

Dallas Smith

Everybody's got addictions, for me its gotta be you  
So slip into something that don't take long  
To slip in and bring me those baby blues,  
El Dorado shined up, got a little extra cash  
And a quarter tank of premium  
Lets see how long it lasts

Baby jump in my Cadillac  
You can slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet home country, Destiny's Child  
Light turns red light turns green  
Sneak a little something in between  
Steering wheel's steady when you're ready girl

We can put a new spin on these wheels  
Tip a little Old Milwaukee back  
Talkin' bout how damn good it feels  
Street lights glowing,  
Slow rollin' this town with you

I can already hear you singing  
I can already see your smile  
With a forty-four leanin' on the door  
Kick back crusin' down dine and shore,  
I pass the dollar general  
Down to the end of the strip  
Make a "U"-ey, hang a lou-ie  
Feel that automatic shift

Baby jump in my Cadillac  
Slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet Home country, Destiny's Child  
Light turns red light turns green  
Sneak a little something in between  
Steerin' wheels steady when you're ready girl

We can put a new spin on these  
Wheels tip a little Old Milwaukee back  
Talkin' bout how damn good it feels  
Street lights glowin',  
Slow rollin' this town with you

Baby jump in my Cadillac  
Slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet Home country, Destiny's Child  
Light turns red light turns green  
Sneak a little something in between  
Steerin' wheels's steady when you're ready girl  
Slow rollin' this town with you
