

Stay (Up With Me)

Dalton Rapattoni

I won't let you sleep tonight
Eyes wide open in bed
And you can toss and turn and fight
But you won't win... you won't win

And I can break down your walls
I can dig deep in to you
And I don't care how wide or tall
You don't know what I can do

I want you to
Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

I'm an almost empty glass
A stolen glance across the room
A nice to meet you and a laugh
With my cologne and your perfume

I want you to
Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

I won't let you sleep tonight

I want you to
Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

(I want you to stay, uh uh uh up with me)
(No not a wink)
(No I won't let you sleep)

Stay, stay up with me, up with me
Stay, stay up with me
Spend the night linked up with me

(I want you to stay, uh uh uh up with me)
(No not a wink)
(No I won't let you sleep)

Stay, stay up with me, up with me

Stay, stay up with me
Spend the night linked up with me
