Damage

now that were alone baby if you want

I can kick the flavour to you all night and you won't have to wait  
because I won't hesitate you can make as much noise as you like  
you see the joy you bring to me makes me feel so good leaves me in  
ecstasy

I like it I like it when you do me that way when you start to play  
caressing all over me

I like it when you do me that way get freaky on me, baby baby we  
can climb you know I'll go for mine and you can go for yours if  
it feels right if you can read my mind show me what you'll find and  
you can do me you see the joy you bring to me makes me feel so  
good leaves me in ecstasy

I like it I like it when you do me that way when you start to play  
caressing all over me

I like it when you do me that way get freaky on me, baby I can hear  
your lovin' calling

I know some games that we can play we'll be making love till morning  
so won't you do me that way do me that way I like it when you
