

## So What If I?

Damage

Don't even want to think about it  
How this life could be, if you weren't with me  
Cause I could never do without it  
The security that you bring to me  
Though there are people that will always doubt us  
Those are the people that have never seen love  
And with their petty jealousy  
Trying to end you and me, I'd like to tell them to live  
Their own lives

So what if I trust, cause that's just how I feel  
Its all about love, as long you are for real  
Its never too much, not too much to reveal  
So what if I, so what if I  
If I'm in love

I'll never fear the competition  
Cause you promised me  
That we'll always be  
'Cause I made loving you my mission  
I'll never feel the doubt or pain  
You'll never be alone again  
And all the souls that try in vain  
Couldn't tear you away  
And so I tell them to live  
Their own lives

I know you can see  
Where I want to be baby  
In your life till the day I breath no more, no more  
I will always be happy  
Long as your love covers me  
Never doubt me girl be sure  
And my loving will endure
