

## Baggage

Dame D.O.L.L.A.

Living my dreams like I never had a nightmare  
I'm ahead, I'm ahead, talking like light years  
I don't see the same things when I'm way, when I'm way up, when I'm way up  
It's hard to make it harder to stay up, stay up, stay up  
I've been thinking, I've been seeing, I've been learning, I've been learning  
Money show you how the world turning, money show  
Old friends say I'm different 'cause I'm earning, I'm earning  
What's a bridge when it's burning

It ain't the mountains ahead that weigh you down  
It's the pebble in your shoe, heavy in my boots  
Invested in the dream now I'm living on the screen  
Everybody want the fruits, they say I got the juice  
Humble beginnings is finished now I'm making millions  
Funny how when tables get turned so do attendance  
People get entitled like loyalty come with pension  
My mind should be at ease, but I'm the one that [?] attention  
I heard my boy at the crib was talking down like (what?)  
Dame ain't the same, he up on cloud nine  
What an excuse to try give your pride a boost (sucker)  
I gotta cut you loose but we could call it all a truce (it's love)  
I hit my pops, he like "you owe these people nothing  
Tell 'em what it is and it's not up for discussion  
You gotta stand for something or you bound to fall for nothing"  
Crazy how I got it all, at times it's like I'm suffering

Living my dreams like I never had a nightmare  
I'm ahead, I'm ahead, talking like light years  
I don't see the same things when I'm way, when I'm way up, when I'm way up  
It's hard to make it harder to stay up, stay up, stay up  
I've been thinking, I've been seeing, I've been learning, I've been learning  
Money show you how the world turning, money show  
Old friends say I'm different 'cause I'm earning, I'm earning  
What's a bridge when it's burning

The way I think is different, hard for me to pass a message (D.O.L.L.A.)  
'Cause every word I speak is like a class in session  
I mean well but the cash in my jeans swells so they probably take offense or  
it might just not ring bells  
People I was tight with, now we ain't got much in common  
Thinking about the times when we ain't complete assignments  
Sad to think about all my friends that turned to violence, when they was sho  
wing promise  
I'm just paying homage  
I feel like a victim of success, it's lonely at the top  
Every accomplishment people take the drop  
A lot of vacant spots and struggling, I hate to watch  
And more money, more problems, Mase was telling right  
I started peeping that Jesus really the reason, I'm healthy every season and  
protected from the demons  
And gold-digging women, that's plotting all over [?]  
A life of cold guy game got the boy feeling anemic

Living my dreams like I never had a nightmare  
I'm ahead, I'm ahead, talking like light years  
I don't see the same things when I'm way, when I'm way up, when I'm way up  
It's hard to make it harder to stay up, stay up, stay up

I've been thinking, I've been seeing, I've been learning, I've been learning
