

Is It You

Dame D.O.L.L.A.

Is it you?
When you off that drank?
Is it you?
When you feel a way? Uh
Is it you, you?
When you walk my way?
Is it you? Uh
Is it really you?

Is it real? I'll be outside
Play my part, just need to know the lines
Too much flaw shit goin' on, my antennas up
Bad bitches goin' out sad tryna get they status up
Hmm, I'm not one of them
Got my own motion, I ain't chasin' M's
I just need to know if you're really him
Fake love out of hand, help me understand

Is it you?
When you off that drank?
Is it you?
When you feel a way? Uh
Is it you, you?
When you walk my way?
Is it you? Uh
Is it really you?

Is it really you how you do that thing when you tipsy?
Say you really down, but is you really with me? (Is you?)
On some Bobby and Whitney, really really rockin'
Playin' second fiddle like Scottie Pippen or Stockton
Even when it's toxic, the bottom of the mosh pit
Or we flyin' private, takin' selfies in the cockpit
Know they can't fuck with me when it come to this boxin'
I hope you threw the key away when we said we was locked in

Is it you?
When you off that drank?
Is it you?
When you feel a way? Uh
Is it you, you?
When you walk my way?
Is it you? Uh
Is it really you?

Okay, is it really you when you on top?
Look me in my eyes if it's real, baby, don't stop (Is it you?)
It was really us when we locked in
Wasn't it you that said we could never be just friends?
Can we take it there? Promise I'm not scared
Back up all you said in my daydreams
Is this really you in my bedsheets lovin' me? Is it you?

Is it you?
When you off that drank?
Is it you? (You, you, you)
When you feel a way? Uh

Is it you, you?
When you walk my way?
Is it you? Uh
Is it really you?
