Dame D.O.L.L.A.

I see you Dame D.O.L.L.A. baby

They show way more love when you history  
Pouring shots like liquor filling up the kidneys  
They been high up in your ride, know that ten speed  
Goin' hard so they never gon' forgive me  
That legacy we leaving what we live for  
Even when you getting it, you gotta get more  
They holla great news, I'm tryna see what it in for  
You got a hungry behavior, say that we live for  
Say that we live for

When you see me you see greatness  
When you see me you see greatness  
When you see me you see greatness  
When you see me you see greatness

I'm tryin' to touch as much real estate as I can  
They know I was a hooper and a hell of a man  
He was a hell of a worker, that had a hell of a plan  
Plenty people that was sinking that he lift out the sand  
Back at home they like, "He made it"  
That decorated patience was amazing, looking back at the obstacles that he faced that ain't faze him  
Bullets that could have grazed but it didn't, boy he a great one  
Forrest Gump, he made it out and came back just to save 'em  
Ballin' out in Portland, that Five-O-Three  
Ain't talkin' Twitter when I tell you that they follow me  
But thanks to my OG, make sure that God know me  
Now I sit up, but I chatter like apostrophe  
I be on the highway, thinkin' how the grind pay  
Baby saying money talk, I lean on what my mom say  
Then I let my heart talk, cuss on my compadre  
Help them people rise up and make me [?]

They show way more love when you history  
Pouring shots like liquor filling up the kidneys  
They been high up in your ride, know that ten speed  
Goin' hard so they never gon' forgive me  
That legacy we leaving what we live for  
Even when you getting it, you gotta get more  
They holla great news, I'm tryna see what it in for  
You got a hungry behavior, say that we live for  
Say that we live for

They don't let you take off, no  
They hatin' on your partner now gotta loaf  
I convert that error and that white dope  
I confront a sucker with that dust smoke  
I daydream dollars and I nightmare prison fool  
People who I love, but in doses we always get into it  
Been over loving my neighborhood since I been at school  
Now I [?], buy [?], buy tennis shoes  
[?] club jackers in that black hawk  
If I in a [?]  
She love me, the devil go through hell inside my bill  
I [?] how negative people I cope with jealousy

I know my horizons is broadened [?] my legacy  
Now I got a bag of some of yall that I can't wait to see  
Thugging 'till I die [?]

They show way more love when you history  
Pouring shots like liquor filling up the kidneys  
They been high up in your ride, know that ten speed  
Goin' hard so they never gon' forgive me  
That legacy we leaving what we live for  
Even when you getting it, you gotta get more
