

# Meditate

Dame D.O.L.L.A.

(N-N-Nonstop)  
Yeah, yeah, yeah  
Yeah, yeah, yeah, yeah  
Uh

Meditate, meditate  
I don't really think that it's a better way (Ain't no better way)  
Meditate, meditate  
I don't really think that it's a better way (It's a better way)  
Yeah, yeah, yeah  
Yeah, yeah, yeah, yeah

Granny told me treat folks how you wanna be treated  
Look at my net-worth, it pay to do it right  
Now I got a Verizon net-worth  
I hit the ground, send a prayer up  
The blessings coming down  
I run the town  
Flip alleged, lip slip, don't come around  
King behavior, uh  
Season flavor, I keeps it player  
You know she's in danger  
If she come my way, we gon' run my play  
Let me meditate, while we on the date  
I often reminisce on all the life lessons  
Snake eyes on me, my die seven  
If its not eleven, got a slot in heaven  
Over sloppy reverends, fake it till you make it  
Basically your basic, facin' me is hatred, I can see it  
I'm everything they not, they envy wishin' they could be it  
The devil got they souls, meditate, they tryna free it  
Cause I need piece of mine, but it's hard to ease the mind  
When you read between the lines  
Like you peakin' through the blinds, and they lyin'  
It's a crime, they gon' flip flop, to get the latest drip drop  
Follow trends of hip hop, they skip hop, too bullshit  
I slip not  
Balance really flawless, my family really love me they gon' balance me regar  
dless  
Not' cause I'm a hooper or a talent as a artist  
Cause they ain't never bargain loyalty, from when it started  
Won't change when I'm departed  
Foundation keep us grounded, in the roots  
Peep the garden, take a step-back like Harden  
Bruh we bossy

Meditate, meditate  
I don't really think that it's a better way (Ain't no better way)  
Meditate, meditate  
I don't really think that it's a better way (It's a better way)  
Yeah, yeah, yeah  
Yeah, yeah, yeah, yeah

I close my eyes to breathe in deep, to get rid of this torn away  
This yogi chick, I use to hit taught me this way, now meditate  
We meditate on money, If we get it, do we elevate?  
Or do we act all goofy and start trippin' to our fall from grace?

That's just a question, that's no confession  
This D.O.L.L.A session is blazed with blessings  
Some niggas meditate on hybrid drugs and ketamine  
I got a buzz and what she does is meditate on iPhone screens  
We meditate on God, try not to meditate on pytamine  
You play them devil cards, that's gonna be hard  
Watch for that sleight of hand  
You pitch your press in us you best be deep  
Into your diaphragm  
Your picture won't be perfect  
Once we post you, you will die on gram  
Say your mantra then you bow  
Meditate is the way how  
You can hit your Zen  
If just believe it, you can make this vow  
Say your mantra then you bow  
Meditate is the way how  
You can hit your Zen  
If just believe it, you can make this vow  
Meditate, Meditate  
To be your better self, this is the better way  
Meditate, Meditate  
To be the better self, this is the better way  
  
Meditate, Meditate  
I don't really think that there's a better way
