

## A New Era

Dami Im

Can you imagine  
Power and glory  
History shifting  
Changing the story  
Just for a moment  
The world has been opened  
Can you imagine  
A new era

Can you imagine  
Touching forever  
Faster than lightning  
Higher than heaven  
Every day stronger  
Ready to conquer  
Can you imagine  
A new era

Can you imagine  
On the horizon  
Destiny calling  
Soft as a siren  
Saying to follow  
[?] tomorrow  
Can you imagine  
A new era

You left me behind  
And I won't forget it  
But soon you will find  
That you'll live to regret it  
I'll pick myself up  
I'll be different than before  
I want the things the future brings  
I wanna spread my wings  
And soar

Can you imagine  
My revolution  
Don't even question  
My resolution  
Can you imagine  
A new era  
A new era  
A new era  
A new era  
A new era  
A new era  
A new era
