

A-Team

Dami Im

I don't like being disliked
I'd rather walk away than fight
But it's not easy all the time
Oh, you love to criticize
And steal away the light
From anyone still trying

I don't even really care
For anything you say to me
Behind your insecurities
I don't even really care

'Cause I got my A-Team
They're in the ring with me
They take the hits with me
And stick with me through all the years
They are my family
The ones that care for me
They always pick me up
And tell me what I need to hear
I got my A-Team
And they're all I need

Hurtful words, they're like glitter
They follow you forever
And melt you like butter
And I could let myself despair
And cry all day 'cause it's not fair
But I have no time to spare, ooh

I don't even really care
For anything you say to me
Behind your insecurities, oh-ooh
I don't even really care

'Cause I got my A-Team
They're in the ring with me
They take the hits with me
And stick with me through all the years
They are my family
The ones that care for me
They always pick me up
And tell me what I need to hear
I got my A-Team
And they're all I need

I won't the angry voices get inside my head
I'll show them I don't care
I got my A-Team
They're in the ring with me
They take the hits with me
And stick with me through all the years
They are my family
The ones that care for me
They always pick me up
And tell me what I need to hear

I got my A-Team
They're in the ring with me
They take the hits with me
And stick with me through all the years
They are my family
The ones that care for me
They always pick me up
And tell me what I need to hear

(A-Team)
(Family) Oh
(Care for me) Ooh, ooh
(A-Team)
(Family) Family
(Care for me) Oh, family
They are my A-Team
And they're all I need
