

# Collide

Dami Im

Ran into each other  
Into a song  
Into a problem  
That bled into love  
Ran into the suburbs  
Said I'd never go  
With wrong expectations  
We burn through them all

So divide and conquer me  
I'm swimming through waters  
That I've never seen  
I found what I believe  
Time to give up the problems  
And give them all up to

Collide with every moment  
Just throw it all in  
Dance in the rain  
Don't look back, don't be afraid  
To collide with every moment  
Get it all out  
Never back down  
Love like I won't love again

Ran into the drama  
And into a fall  
Caught in a web  
Can't out run them all  
I tried to be at peace  
But felt like a war  
So I'll give up the problems  
And give them all up to

Collide with every moment  
Just throw it all in  
Dance in the rain  
Don't look back, don't be afraid  
To collide with every moment  
Get it all out  
Never back down  
Love like you won't love again

Sometimes I miss what I could have become  
I wonder where I could have gone  
Is it enough

To collide with every moment  
Is it really enough  
Would I give it all up  
Yeah, I'd give that all up  
To collide with every moment  
Just get it all out  
Never back down  
Love like you won't love again
