Invincible

Dami Im

If we go back to the start when I met you in the park
At your baseball game
You were strong and took my heart and you've always played the part
Since that perfect day

And although you were enough and I know I was lucky
I was still missing all the rhythm of my heartbeat now
So I had to push away, take a look in the mirror
Find out who I am if I wasn't with you now
And I can see that I won't ever

Give up, give up, give up on our sacred love, sacred love
Give up, give up, give up cause you're in my blood
Everything I am is just enough
But you make me feel invincible, invincible

They say you never know what you have until it's gone
I learned the hardest way, ooh
That a love like yours is rare and I'm glad I find you there
When I wake up each day

Now I know you were enough and I know that I'm lucky
I dance to every single rhythm of my heartbeat now
I just had to take a break, take a look in the mirror
Life is only ever half full without you now
And I can see that I won't ever

Give up, give up, give up on our sacred love, sacred love
Give up, give up, give up cause you're in my blood
Everything I am is just enough
But you make me feel invincible

(Invincible)
And I can see that I won't ever

Give up, give up, give up on our sacred love, sacred love
Give up, give up, give up cause you're in my blood
Everything I am is just enough
But you make me feel invincible, invincible
We're invincible, invincible, invincible
